

## Greeks Capture 8,000 Turks in Smyrna Region

Guns and Other Booty Taken When Army Corps of Nationalists Is Surrounded, Dispatch Says

### Salikli Is Occupied

### Constantinople Reports Plan of Kemal to Harass Enemy in Thrace

LONDON, June 25.—The Greek legation here has received official information that the Greeks campaigning against the Turkish Nationalists in the Smyrna district surrounded a Turkish army corps in Philadelphia (Ala-Shehr, eighty-three miles east of Smyrna), taking 8,000 prisoners, with guns and other booty.

### Greek Offensive Continues

SMYRNA, June 25.—The Greek army, which on June 21 began an offensive against the forces of Mustafa Kemal Pasha, the Turkish Nationalist leader, is continuing successfully to advance toward the city. It was announced in the Greek army headquarters communiqué issued yesterday, Salikli has been captured by the

Greeks, whose cavalry is now pushing on. The statement reads: "The 10th Division attacked Salikli and Lake Marmara Pass yesterday, occupied Salikli at 6:30 p. m., carried the pass by assault and cleared both districts. A cavalry column has advanced toward Kula."

Turks Advance Toward Smyrna  
CONSTANTINOPLE, June 25.—(By The Associated Press.) The Turkish Nationalists still are pressing the Asiatic shores of Marmara in the vicinity of Constantinople and are directing a great concentration toward Smyrna.

Apparently the plan of the followers of Mustafa Kemal Pasha is to harass the Greeks as far as possible in Thrace and the English opposite Constantinople, to prevent them from sending reinforcements to the Greeks in the Smyrna district where, it is believed here, the Nationalists will attack in force if the peace conference persists in giving Smyrna to the Greeks.

The Turkish peace delegation in Paris has been instructed from Constantinople that the Turkish government will uncompromisingly refuse to sign any peace treaty which deprives Turkey of the Smyrna district, Adrianople or eastern Thrace. In the main, it is indicated, the government agrees with any peace treaty which deprives Turkey of given representation on the international commission governing the Straits and also on other commissions created for the regulation of Turkish affairs.

The Turkish government consents to have portions of Armenia, Bitlis and Van provinces given to Armenia, but insists that Armenia's Black Sea port be outside of Turkey, and asks financial compensation for the territory given Armenia.

Turkey insists that it is willing to accept a settlement according to the Wilsonian principles and the spirit of the League of Nations, but that the Turkish government could live if it signed the present treaty.

### Indian Nationalists Issue Threat

BOMBAY, India, June 25.—Gandhi, leader of the Indian Nationalists, has written a letter to the Viceroy of India, in which he threatens to advise Muslims and Hindus to withdraw all their support from the government unless the Turkish peace terms are revised "in accordance with the solemn pledges of the British ministers."

### Red's Deportation Halted

Roberto Elia May Be Prosecuted in Bomb Plots  
From The Tribune's Washington Bureau  
WASHINGTON, June 25.—Assistant Secretary of Labor Post today announced that deportation proceedings against Roberto Elia have been stayed at the request of the Attorney General of New York. The request was made to give state authorities an opportunity to present the case to the grand jury of Kings County.

Elia is under deportation orders as an anarchist. According to the Department of Justice, he was implicated in the bomb plots of June 2. His case has been brought to the attention of the Department of Justice. If Attorney General Palmer asks for his indictment for complicity in the bomb plots Elia will be delivered to the proper authorities. If the indictment is not asked the New York authorities will be given custody of Elia.

If neither state nor Federal authorities act, the deportation will be carried out, it was said.

## Socialists Avert Crisis Over New German Cabinet

### "Vorwaerts" Announces Party Will Place No Obstacles in Way of Ministry Formed by Fehrenbach

BERLIN, June 25.—The Cabinet crisis apparently was passed to-day with the announcement in "Vorwaerts," official organ of the Majority Socialists, that the party would not put any obstacles in the way of the Cabinet formed by Konstantin Fehrenbach. The newspaper indicated that the attitude of the Majority Socialists would be tolerant, but negative.

Two ministers, to take the portfolios of Reconstruction and Labor, are yet to be selected. Otherwise the Cabinet stands as originally constituted early this week.

The Reichstag sessions for the first few days will continue to be brief and unimportant. The first business session, at which the new ministry will be present, will be early next week. One of the first matters to be taken up is the bill to abolish the military courts. A demand for this action has arisen as a result of the acquittal, yesterday, by a military court, of a number of former officers, now students at Magdeburg University, who last night shot fifteen workmen who were under arrest.

At the trial the prisoners were shot while attempting to escape, although other testimony tended to show that the incident was cold-blooded murder. The public has become greatly excited over the case. The "Bund Neues Vaterland" has sent an appeal to correspondents here of foreign newspapers, asking for support and saying: "Only by the conscience of the world can Germany be liberated from the burden of Prussian militarism."

## Gunman Kills Veteran Who Fights Entire Gang

Thomas Gayer, who went through the Argonne without a scratch, was shot dead by a gunman yesterday afternoon in front of 740A Union Street, Brooklyn. He lived at 37 Dixon Place, Brooklyn.

His brother, James, a pugilist, known as "Bobby Gayer," had a room in the Union Street house until two weeks ago, and asked Thomas Gayer to call for him. One of his assailants, according to the story told to the police, a woman believed to be a Mrs. Delucio, who had been "Bobby Gayer's" landlady, refused to give up the clothes, saying that some rent was still due her.

There was a dispute on the steps of the house, which continued as a boy darted away to the corner, where a group of swarthy foreigners were talking. The boy said something to the men in Italian and five of them marched truculently toward the house.

Gayer turned as they arrived and there was a light. One of his assailants wrenched himself out of the struggling knot of men, drew a revolver and fired at Gayer. Gayer fell and the other men ran. The man who had fired the shot was pursued for several blocks by a crowd, but escaped.

Gayer was taken to Methodist Episcopal Hospital. He was dead. He was a first sergeant in the 7th Division Headquarters in France, and previously had served in the navy. He leaves a wife and two children.

### 'Agents' Trick Watchman Steal 11 Bbls of Alcohol

While Frank Styres, a night watchman who was on duty at the warehouse of Joseph Iannuzzi at 387 First Avenue, was being taken to the Federal Building last night by two men who he thought were revenue agents, for the back of his motor truck up to the Iannuzzi store and got away with eleven barrels of 100-proof alcohol. The truck was chased by Patrolman Nolte, of the East Thirty-fifth Street station, but without success. Late last night a general alarm was sent out from Police Headquarters for the gang.

Styres was looking up the store at 10 o'clock, when three of the bogus revenue agents appeared. "You'll have to come with us," they told Styres, showing an official looking badge. To his plea that he couldn't leave the store unprotected they replied that the third man would stay and watch the store.

This arrangement being completed two of the men took Styres to the Federal Building. One disappeared inside the building. The other stayed on the sidewalk with Styres for a minute or so and then walked quietly away.

Meanwhile Patrolman Nolte had surprised four men who were loading barrels of alcohol on the truck outside the Iannuzzi store. As soon as they saw the uniform the men jumped to the truck, which sped away. Nolte followed on foot. He commanded an automobile, but by that time the truck had vanished.

To-day was approaching a normal condition, but the city was still in a state of confusion. The railway men have announced that as their intention to live up to their word. Their recent statement outlining their attitude, so far as known, has been run. One reply from official quarters, nor has any attempt been made to bridge over the difficulty.

### Bill of Exceptions in Newberry Case Approved

GRAND RAPIDS, Mich., June 25.—A bill of exceptions and assignment of error filed for Senator Truman H. Newberry and sixteen others convicted last March on charges of corruption in the 1918 Senatorial election has been approved by Judge Sessions in Federal Court, and the case will go to the United States Supreme Court as soon as the printing is completed, it was announced here to-day.

Assistant Attorney General Frank C. Dailey, who conducted the prosecution, has been working on the bill of exceptions for two weeks. He said to-day he would endeavor to bring the case on for hearing in the Supreme Court at the earliest possible time.

Senator Newberry was sentenced to two years' imprisonment in Leavenworth and fined \$10,000. All the convicted men have been at liberty under bond pending perfection of the appeal. The assignment of error cites a long list of points on which the court is claimed to have made incorrect rulings. Admission of certain testimony, the sustaining of certain government objections, the judge's charge to the jury and the denial of motions for new trials and arrests of judgment are mentioned.

## Ulster Calls on Government for Protection

Unionist Council Also Says It Will Make Use of Loyalists if Forces of Crown Fail Them

### Sinn Feiners Attacked

### Outrages Continue Despite the Presence of Troops; Londonderry Is Quiet

BELFAST, June 25.—The standing committee of the Ulster Unionist Council has decided to call on the Government to protect the lives and property of loyal inhabitants of the Province with the forces of the Crown. Failing this protection the committee decided that it should recognize and utilize the service of the Ulster Loyalists.

Sinn Feiners Attacked  
BANTRY, County Cork, Ireland, June 25.—What was apparently a concerted series of outrages against Sinn Féin members occurred here last night, one death and the burning of several homes and shops resulting.

LONDON, June 25.—Shippers were busy in Londonderry during the night, according to a Central News dispatch from that city. Troops on guard there fired on disorderly elements several times and also dispersed looters.

At about midnight the firing became so intense that the searchlight on the destroyer anchored in the harbor was turned on the city in an endeavor to locate the men engaged in the fighting.

A former soldier named Austin was killed while carrying a street. Ireland's railway situation is daily becoming worse, according to a Dublin dispatch to "The London Times," more men being dismissed and fewer trains being run. One train after another is becoming isolated and the eventual paralysis of the entire railway system is looked for.

The men are determined not to work trains carrying military or police orders, but soldiers and police continue to attempt travel by trains, with the inevitable consequence that trains remain in a depot and passengers get annoyed. Drivers of motor cars and taxicabs are dismissed, and the dispatch says there is now an individual strike rather than a collective strike in full swing.

The railway men have announced that as their intention to live up to their word. Their recent statement outlining their attitude, so far as known, has been run. One reply from official quarters, nor has any attempt been made to bridge over the difficulty.

## Perkin's Death Deplored By Palisades Park Board

Formally Accredited Financier for Conceiving and Providing Big Recreation Place

The New York and New Jersey Palisades Park Commission had a joint meeting yesterday to adopt a minute deploring the death of George W. Perkins. It said:

"The Palisades Interstate Park, as it now exists, was the conception of Mr. Perkins, and it was he and he alone who raised the money for its acquisition and development. As the park grew in size and usefulness his ideas and enthusiasm grew with it, until in the latter years of his life he conceived a playground large enough and complete enough to afford rest and recreation to all the people of New York and New Jersey who lived near enough to enjoy it, and where all the facilities for such enjoyment should be furnished at cost without profit to concessionaires or others."

Mr. Perkins combined the ideal and the practical to a remarkable degree. The Palisades park, although the most important, was only one of the many projects which he wisely conceived and wisely executed in the public interest. He is worthy of all the tributes that are being paid to his memory, but the Palisades Interstate Park will stand as his monument—grander and more enduring than any could be fashioned by the hand of man."
